

HOW YOU EARN YOUR POINTS

Every way to earn points. One page. Save this to your phone. This is the correct and final version.
Read it once. Track yourself daily.

SECTION 1 — DAILY CHECK-IN | Automatic. Calculated from your timestamp.

Fill the check-in form every day. These two points are calculated automatically from your submission — you do not need to do anything extra.

	Submit the daily check-in form Fill the form with your name, day number, video confirmation, and Figma screenshot.	+10 PTS
	Early submission bonus Submit before 3:00 PM. The sheet detects the timestamp and adds the bonus automatically.	+5 PTS before 3PM

SECTION 2 — WHATSAPP GROUP INTERACTIONS | Admin tracks these manually each evening.

These are checked by the admin every evening. You cannot claim them — the admin awards them based on what they see in the group.

1  	First person to post check-in update in the group today Post in WhatsApp that you submitted your form. First person only.	+5 PTS
	Asked a genuine question that benefits the group One real question per day. Must be relevant to the course or Figma.	+3 PTS
	Helped another member answer a question Give a real, helpful answer to someone else's question in the group.	+5 PTS
	Shared a useful tip or resource without being asked Share a shortcut, trick, or useful link that helps others.	+3 PTS

	Posted encouragement that got reactions from others Genuine encouragement — not just 'good job'. Must get reactions from members.	+2 PTS
---	---	---------------

SECTION 3 — YOUR FIGMA WORK | Admin scores your creativity level each day.

Post your Figma work in WhatsApp or upload it in the check-in form. The admin reviews each submission and assigns a creativity level.

	Standard — Built what the video showed Clean execution of the tutorial. Nothing extra beyond what was taught.	+5 PTS
	Good — Went beyond the video You explored something extra. Shows personal thinking beyond the task.	+10 PTS
	Impressive — Original output, combined ideas You created something the video did not show. Adapted concepts creatively.	+15 PTS
	Extraordinary — Makes others say 'I didn't know you could do that' Publicly announced in the group. Facebook page shoutout. Rare.	+20 PTS

SECTION 4 — FACEBOOK INTERACTIONS | Screenshot = proof. Upload in check-in form.

Every image you upload in the check-in form earns +5 points automatically. What the image **shows** adds extra points on top. You have 5 upload slots — use them wisely.

	Upload any image to the check-in form Figma work, Facebook screenshot, or any other relevant image. +5 pts per image, every image, every slot.	+5 PTS per image uploaded
   	Screenshot shows: Heart + Comment + Share on a post Take a screenshot showing all 3 actions on the same post. Upload it. You earn +5 base (for uploading) + +10 extra (for the 3 actions) = +15 total.	+15 PTS total per screenshot
	Screenshot shows: Post shared to a Facebook group Share the post to a group you are in, screenshot the group share, upload it. You earn +5 base (for uploading) + +5 extra (for the group share) = +10 total.	+10 PTS total per screenshot

SLOT	WHAT TO UPLOAD	POINTS PER SLOT	MAX IF USED
Slot 1	Heart + Comment + Share screenshot	+15 pts	+15
Slot 2	Heart + Comment + Share screenshot	+15 pts	+15
Slot 3	Group share screenshot	+10 pts	+10
Slot 4	Group share screenshot	+10 pts	+10
Slot 5	Figma work or any other image	+5 pts	+5
	TOTAL — All 5 slots used in priority order		+55 PTS

Use your slots in order — highest value first. A student who fills all 5 slots correctly earns +55 pts from uploads alone, on top of their regular check-in points. Every unused slot is points left on the table.

SECTION 5 — BONUS POINTS | Admin awards these. You cannot claim them yourself.

These are awarded by the admin for specific actions. None of these overlap with Sections 1 to 4 — they are separate categories only.

Bonus Action	Points
Referred a new member who joined the programme	+25 pts
Phase completion confirmed by admin	+20 pts
Perfect week — submitted every day Monday to Friday	+15 pts
Special bonus announced by instructor during the week	Varies

YOUR TIER — Updates automatically as your total points grow.

Tier	Points Needed	What It Means
■ UNRANKED	0 – 49 pts	You have just started. Keep going.
■ BRONZE	50 – 149 pts	You are showing up. Build the habit.
■ SILVER	150 – 249 pts	You are consistent. Others notice.
■ GOLD	250 – 349 pts	You are in the top group. Keep pushing.

■ PLATINUM	350+ pts	You are the standard others measure themselves by.
------------	----------	--

■ YOUR STREAK Your streak is the number of consecutive days you have submitted. It shows on the leaderboard next to your name. It does not earn points — but it shows how consistent you are. Miss one day and it resets to zero.	✕ DID NOT SUBMIT (DNS) If you do not submit on any given day, your name appears at the bottom of the leaderboard under 'Did Not Submit Yet' — visible to every member. There is no hiding a missed day.
--	--

YOUR TOTAL POINTS PRINT ON YOUR CERTIFICATE EXACTLY AS THEY ARE. Every point you earn — and every point you miss — is permanent.

660	BASE MAXIMUM POINTS 660 is the floor — not the ceiling. Every point above 660 strengthens your certificate. Students who reach 1,000+ show the world they work harder than required. That is something no resume can fake.
-------------------	---

The students who understand this system and act on it every day will finish this programme with significantly more points than those who only fill the form. You now know exactly how every point works. Go earn them.
